

Values and Beliefs

We believe that our sixth form provides an exceptional, high-quality experience to all committed sixth form students with the necessary entry qualifications.

We believe that there should be different sorts of courses to suit the needs, interests and preferred approaches of different students:

- **The AQA Baccalaureate**, based around the familiar A-level courses but offering much more
- **A Pre-U** option for students seeking a real challenge and excellent preparation for top universities, including Oxbridge
- **A Vocational route** allowing specialism in either Business or Sport as the main focus of study

For us, educating goes way beyond simply gaining outstanding qualifications. In addition to this, we believe it is important that the following are all available:

Broader experiences and qualifications. The chance to gain a Duke of Edinburgh Gold Award and other such possibilities should be available to all.

The chance to pursue excellence in a particular talent. Our new and exciting Sports Academies are a great example of this. The opportunity to pursue your talent and interest in the Arts is also there for all.

The opportunity to visit the world. Whether through our Exploration Society, our various international school links or the regular international trips on offer, international experience is available as a fundamental part of the sixth form.

Finally, we are sure that every sixth form student should enjoy their sixth form experience. These should be two of the best years in anyone's life and we want to ensure that this is true for every student at Comberton Sixth Form.

We aim to ensure that all students leave with:

- Outstanding qualifications
- Highly developed skills
- Future plans in place
- Memories to cherish forever

You will be working in a fabulous, supportive community, which promotes tolerance and mutual respect.

We will establish and maintain close partnerships with other schools, colleges and universities.
